Ethernet for flow measurement

Measurement performance at the speed of light

For the first time, industrial ethernet enters ABB instrumentation with the ProcessMaster and CoriolisMaster.

ABB flow measurement is connection made easy! Gain quick access to meters with a standard browser on a laptop, tablet or mobile device in parallel to PLC – secure and via the same cable. **abb.com**

Power over Ethernet

Intergated device verification

Redundant communication, ring and daisy chain wiring

Prepared for TSN

Multiple cyber security features
