(15) **Description of product**

The pressure transducer JUMO MIDAS S21 Ex type 404710 / 000 - *** - 405 - *** - 20 - ** serves for converting a physical measured quantity (pressure) into a standardised electrical signal (current signal 4 .. 20 mA). It is intended for use within potentially explosive areas.
The intrinsically safe circuit is connected with a non-detachable (cable length in plain text), circular connector M12 x 1 or a special electrical connection.
