

Digital Input or Output Module 12-Channel (705030)

- 12 digital inputs or outputs
- Channels can be configured individually as DC 0/24 V digital input or DC 0/24 V / max. 500 mA digital output
- External voltage supply for digital inputs or outputs via terminal on front

Order details

(1) Basic type	
705030	Digital in- / output module 12-channel
(2) Voltage supply	
36	DC 24 V +25/-20 %
(3) DNV GL approved	
000	Without approval
062	With DNV GL approval

Order code

(1) (2) (3)
 / /

Planning data: module width 22.5 mm, current consumption 90 mA

Power supply unit with GL approval required (e.g. type 705090).
